

ONE-PAGER

**VERU OIL PETROLEUM
TRADING
CORPORATION**

TABLE OF CONTENT

01

COMPANY OVERVIEW

A Canadian registered energy corporation with a Dubai hub, integrating petroleum trading, tank storage, and logistics under one trusted platform.

02

CORE BUSINESSES & PROJECTS

From crude oil and refined products to renewable initiatives like hydrogen and carbon capture, Veru Oil builds a diversified portfolio for the future.

03

STRATEGIC VISION

Expanding into refinery & terminal infrastructure while leading in clean energy transition, creating a fully integrated energy supply chain.

04

INVESTMENT OPPORTUNITY

USD 300M–500M required for tank farm expansion, modular refinery, logistics fleet, and green energy projects, with SPAC exit via NASDAQ/NYSE.

05

COMPETITIVE ADVANTAGE

Canadian compliance, UAE market access, proven leadership, innovative clean-tech pipeline, and recognized track record in global trade.

COMPANY OVERVIEW

- **Headquarters:** Toronto, Ontario, Canada
- **Branch:** Dubai, United Arab Emirates (Veru Oil FZE)
- **Sector:** Integrated Energy & Infrastructure (Petroleum, LNG, Renewables, Logistics)
- **Founder & CEO:** Alireza Miralami

Veru Oil is a Canadian-registered energy and infrastructure corporation building a platform that bridges traditional petroleum trading with **next-generation energy transition projects**. With operations spanning petroleum trading, tank farms, LNG, hydrogen, carbon capture, and renewables, we provide a scalable **model for global energy supply and sustainability**.

CORE BUSINESSES & PROJECTS

Petroleum & LNG Trading

- Crude, Gasoil, Fuel Oil, Naphtha, Condensate, LNG
- Flexible finance solutions: SBLC, BG, DLC

Tank Farm Operations

- Fujairah & Hamriyah (UAE) + West Africa
- Expansion of strategic crude/refined product storage

Refinery & Petrochemicals

- Modular refinery (RAK, UAE)
- Petrochemical mega-complex (Nigeria)

Clean Energy & Carbon Solutions

- Green Hydrogen (UAE/KSA) powered by solar/wind, export-ready to Europe/Asia
- Carbon Capture & Storage (Canada/UAE) with MRV frameworks and credit monetization
- Hybrid Solar + Battery Projects (Sub-Saharan Africa) for grid stability and C&I clients

Logistics & Infrastructure

- Building integrated logistics corridors, expanding vessel fleet & LNG shipping, and offering container leasing & clearance solutions.
- Container solutions (leasing, buy/sell, clearance)

STRATEGIC VISION

Veru Oil's roadmap integrates **traditional energy** + **clean technologies** to build a resilient, ESG-aligned, and **SPAC-ready** global platform. Our projects position us as a midstream & downstream operator driving the energy transition across **North America, MENA, and Africa.**

Clean Energy Transition

Expanding into hydrogen, carbon capture, and renewable integration to align with global decarbonization goals.

SPAC Ready Growth

Positioning Veru Oil for public listing with scalable infrastructure and transparent governance

INVESTMENT OPPORTUNITY

Veru Oil is positioned at the intersection of traditional energy and clean technologies, creating a unique opportunity for investors seeking scalable growth. With a funding requirement of **USD 300M–500M**, we aim to accelerate our core projects, expand infrastructure, and deliver sustainable **long-term value across petroleum, LNG, hydrogen, and renewable markets**. This investment supports our **SPAC-readiness** strategy, paving the way for a public listing on Nasdaq/NYSE.

Funding Requirement:

USD 300M – 500M

Use of Proceeds:

- Tank farm expansions (UAE, West Africa)
- Refinery & LNG infrastructure projects
- Hydrogen, CCS, and renewable hybrid solutions
- Logistics fleet & digital operations

Exit Strategy:

- Public listing via **SPAC merger (Nasdaq/NYSE)**
- Growth across both the petroleum & clean energy markets

COMPETITIVE ADVANTAGE

- **Canadian registration** → credibility, compliance, transparency.
- **UAE base** → regional access & trade finance flexibility.
- Balanced portfolio → **Petroleum + LNG + Hydrogen + CCS + Renewables.**
- Proven leadership with awards & international experience.
